

ENVIRONMENTAL Protection Actions Dave Rauch Support

Please vote to improve protections for the Connecticut Environment.

We moved to Connecticut many years ago because it offered an excellent quality of life that balanced economic and cultural opportunity with a generally healthy environment and good access to outdoor recreation. It is clear that many others find that balance highly appealing.

Given the importance of the environment to so many citizens and the strong correlation between the environment and positive images of Connecticut, actions to protect our environment must be a high priority.

Our environment faces many challenges including climate change, loss of habitat, loss of open space, invasive species, etc. Decisive and prompt government actions will be required to protect a high quality natural environment in Connecticut.

Thank you for this opportunity to share my views and for all the hard work you do for Connecticut.
